WHOLESALE ONLY IS INSURANCE FOR YOUR PROTECTION

Perhaps you wonder at the sincerity and complete faith with which we solicit your patronage. It is easily explained by the fact that we have never in the life of this business seen fit to compete for a retail clientele in any manner. Our whole effort has been directed to wholesaling plants of quality to the trade alone—thereby insuring that our complete facilities are always directed toward the production of good things for the tradespeople alone. It is this spirit that has given us life and has fostered our growth. Never are we tempted to withhold anything that is highly meritorious on the grounds that we could capitalize more profitably by taking the cream from the retail market first.

Hardy Chrysanthemums

The Joseph F. Martin Co.'s New Introductions

CONTRAST NEW FOR 1948. A distinct departure. In the field, despite the literally endless array of varieties around them, plants of Contrast were marked different everywhere they were shown. It grows with a character quite different than anything that we are accustomed to. Instead of the conventional mound formed by semi-low growing types, a bowl-like effect is achieved, a flat mass across the top and a cascade of bloom to the ground. The duplex flowers are a harmonious contrast with every soft rose petal tipped yellow. It is a strong sturdy grower, coming in around the first week in September.

Pots, Per 10, \$4.50; Per 100, \$40.00
Rooted Cuttings, Per 10, \$4.00; Per 100, \$30.00

NABOB NEW FOR 1948! A rich, exotic soft purple with a metallic sheen that brings it to the "plastique" shades used so effectively in modern decoration. There is absolutely no hint of magenta either in the prime bloom or the fading flower. It grows medium tall and the deep, lush, forest green foliage, growing to the ground, is a complimentary frame for the abundance of very rich flowers.

Pots, Per 10, \$4.50; Per 100, \$40.00
Rooted Cuttings, Per 10, \$4.00; Per 100, \$30.00

DRAGON LADY A new mum-color too—a satin smooth Chinese Red, more striking than Caliph, deeper than Red Velvet. Starting mid-September, it bloomed continuously for six week and didn't fade a shade. Mature flowers develop spoon tips. Foliage is an outstanding deep green, almost black, extra large, bright as waxed leather. It is a decorative growing bush, and a red mass in bloom.

JAYEFF Flowers are huge, 4 inches and more in true diameter, fully double, no centers. The color is a deep, positive pink with a dazzling, drifting sheen. No other color or flower form like it. Bushy plant bears straight stems by the dozens, no pinching. Grows to 2 ft., vigorous and healthy, bushy. Flowers appear here from the 15th of September and bear without fading until severe frost.

REDCOAT NEW FOR 1948! As hardy as the men it pays tribute and as brilliant as the uniforms they wear. A strong sturdy grower resisting with casual abandon the culprits that take their toll from others less sturdy. Flowers are a really new red in Chrysanthemums. Vermilion is the closest comparison. Fully double, they appear on strong yet succulent stems growing medium high in profusion. This one will be a leader par excellence for years to come.

Pots, Per 10, \$4.50; Per 100, \$40.00
Rooted Cuttings, Per 10, \$4.00; Per 100, \$30.00

NANKEEN NEW FOR 1948! A medium tall golden cushion. Only the growth characteristics bring it into the cushion classification. The flowers are completely different from any appearing on the cushion varieties. They are fully double, tightly knit, and exhibit no center even in their late stages. The color is that of polished old gold, and, in the direct sun it is flushed with a shimmering sheen that makes a group planting a lively dynamic scene.

Pots, Per 10, \$4.50; Per 100, \$40.00
Rooted Cuttings, Per 10, \$4.00; Per 100, \$30.00

SALUTE A perfect deep purple, the memorial tribute shade, dedicated to our memories. Soft and fluffy, yet so double the petals seem to be woven into a tight knit to accommodate them all. It is small, extremely bushy, growing to 12 inches and is completely covered with mellow, deeply satisfying blooms so profuse that the foliage is completely hidden. Blooms first week in September and continues for weeks without fading. It's wonderful, born only for the purpose it so clearly serves.

In keeping with the trend toward improvement of difficult landscape locations by the adaption of easily accomplished naturalizations, the *Iris Siberica* is gaining popularity by leaps and bounds. The Siberian Iris is a rugged individual, seemingly never discouraged no matter the problem the planter poses to it. Remembering that the Siberian Iris clumps quickly, that they are literally a stately mass of flowers when in bloom and that their forest-green foliage is a most appealing shade without flowers, you will have an endless round of utility for the assortment below. When in doubt, plant a Siberian. When you want rugged brilliance, plant them on their own merit.

While this basket was being prepared for his display, it so effectively captivated a customer that it was sold as soon as it was finished.
